

DIMENSIONS OF DISCOVERY

A web page created by [Alyssa Goodman](#) to showcase the use of technology in research, education, and communication, of science and more.

What's happening "these days?" A sampler of ongoing and recent projects.

The Radcliffe Wave

A gigantic "wave" of dense gas that forms the spine of the Local Arm of the Milky Way.

The Local Bubble

A 1000-light-year-wide bubble surrounding the Sun and Earth is apparently responsible for

PredictionX

The best place to learn more about the past, present, and future of the future. Through dynamic online learning, PredictionX uncovers the role of uncertainty in the world around us.

Data + Climate

A collaboration of researchers at Harvard and Google, making data discoverable and available

Link Editor

Click on two datasets to set up links or click on an existing connection to edit links. Selected datasets are shown in green. When one dataset is selected, the colors show directly and indirectly linked (blue) and inaccessible (red) datasets.

Dataset 1	Dataset 2	Links between Dataset 1 and Dataset 2	Link details
Orion_A_J_3x3	Orion_A_H_3x3	identity(Right Ascension <-> Right Ascension) identity(Declination <-> Declination)	<p>Dataset 1 attributes</p> <p>x: Right Ascension</p> <p>Dataset 2 attributes</p> <p>output: Right Ascension</p>

BUT WAIT, JUST ONE MORE THING...COMING SOON: GLUE IN ~JUPYTER LAB

The screenshot shows a JupyterLab environment with a code editor on the left displaying a histogram and an 'Output View' on the right showing a scatter plot. A semi-transparent window of the 'glue solutions, inc.' website is overlaid on the center. The website header includes navigation links: Home, Gallery, Our Team, The Software, **glue-con**, Social Impact, and Working with Us. The main content area features the 'glue-con' logo and a paragraph: 'On behalf of the glue and glupyter communities, glue solutions, inc. helps host a series of hackathon get-togethers known as "glue-con."' Below this, there are sections for 'Upcoming Events' and 'Past Events'. The 'Upcoming Events' section lists 'glue-con 2021 (online) [program will focus on Jupyter and web integration]'. The 'Past Events' section lists 'glue-con 2020 (CCA/AMNH) [program/outcomes]', 'glue-con 2019 (CfA) [site] [program/outcomes]', and 'glue-con 2018 (CfA) [program/outcomes]'.

glue solutions, inc. Home Gallery Our Team The Software **glue-con** Social Impact Working with Us

 On behalf of the glue and glupyter communities, glue solutions, inc. helps host a series of hackathon get-togethers known as "glue-con."

Upcoming Events

glue-con 2021 (online) [program will focus on Jupyter and web integration]

Past Events

glue-con 2020 (CCA/AMNH) [program/outcomes]
glue-con 2019 (CfA) [site] [program/outcomes]
glue-con 2018 (CfA) [program/outcomes]

Installing and running glue

Several installation methods for Glue are outlined in the sections below. If you run into issues, each page should provide relevant troubleshooting, and you can also check the [Known issues and solutions](#) page which collects some more general issues. If your problem is not described there, [open a new issue](#) on GitHub.

- [Anaconda Python Distribution \(Recommended\)](#)
- [Installing with pip](#)
- [Installing PyQt or PySide](#)
- [Full list of dependencies](#)
- [Installing the latest developer version](#)

Note

If you are using Apple M1 hardware, be sure to read [Using glue on Apple M1 hardware](#) before proceeding with the installation instructions.

Once glue is installed, you will be able to type:

```
glue
```

HOW TO USE ESASKY

ESASky is a science driven discovery portal providing full access to the entire sky as observed with Space astronomy missions. Short videos on how to use the tool are shown below and the general documentation can be found [here](#).

[Open ESASky](#)

The video thumbnails are arranged in a 2x3 grid. Each thumbnail includes a play button icon and a title. The titles are: 'WHAT'S NEW IN ESASKY IN 2020?', 'PYESASKY: THE JUPYTER WIDGET FOR ESASKY', 'JUPYTERCON 2020 PRESENTATION: EXPLORING THE UNIVERSE WITH ESASKY'S JUPYTERLAB WIDGET', 'EAS 2020 PRESENTATION: ESASKY, ESA'S INTERFACE TO ASTRONOMICAL DATA', 'How to find and d...', and 'What's new in ESA...'.
